

# HORSE STALLS & EXERCISE ARENA

2 bay portable stall

## Stalls

Our horse stalls can be erected as either a free-standing modular unit or as a permanent installation utilising the internal structure of a barn or farm building. The stalls provide separation from other animals and, in the case of internal installations, protection from the elements.

### Features:

- All steel is galvanized to eliminate rusting
- Plywood is treated for outside use
- Plywood edges are not accessible thereby preventing gnawing by a horse
- Easy sliding door
- Panels are of sufficient weight to prevent movement by a horse
- Stand-alone modules can be built onto at a later date.
- Custom made sizes to suit your horse or barn
- 4m x 4m square gives the horse plenty of room

## Pricing

### Stalls:

Display module (as shown).....\$3750

Permanent internal installation

**Horses are one of the most loved animals. Our stalls and arenas are designed to give your valuable horses the protection they deserve.**

## Exercise Arena

Our horse arena provides a safe and convenient facility to exercise your horses and the ease of erection and moving mean that you can choose the most suitable site for any particular occasion.

### Features:

- All steel is galvanized to eliminate rusting
- Easy to erect and move
- Panel size 3.4m width x 1.6m height
- Construct to any size diameter by using extra panels

10 panel arena giving a diameter of 12 metres (18 panels give a diameter of 20 metres)
